# ASTRONOMICAL AGRICULTURAL CALENDAR BASED UPON THE ETHERIC CYCLE OF THE EARTH

## PART ONE THEORY OF THE CALENDAR

### 1) CHANGES

Anyone who has followed our work through the years will know of our efforts to ‘live in the present’ and not to lapse into comfortable habits either of life or of thought. Such people will not be surprised that we have modified our Astronomical Agricultural Calendar once again, in step with the changing cosmic influences upon the Earth.

The understanding that we have of Life - one that considers Life to be a divine gift that ‘incarnates’ into and guides the natural kingdoms - demands courage and conceptual flexibility in order to become practical and fruitful.

The ancient Greeks used two names to embrace the concept of *life*: *Zoe* indicated spiritual Life that descends as a continuously renewed divine gift, whilst *Bios* indicates manifest life that suffers birth, develops, and then perishes.

The anthroposophically oriented spiritual science, brought to humanity by the Austrian philosopher and scientist Dr Rudolf Steiner, inspires and underpins our own efforts. Dr Steiner told us that there would be a “*complete manifestation of the Christ in the etheric plane*” in September 1999 and that at this time the Earth’s etheric body would be profoundly changed.

The expression ‘*complete manifestation of the Christ in the etheric plane*’, means that assistance for the spiritual evolution of humanity is secured by Christ in the plane of Life, or what we call the *etheric plane*. This is a modern expression for the event expressed in the Gospels as the *Parousia*, or “coming in the clouds” (Mark 13, 24-27)<sup>1</sup>.

After the Earthly manifestation in the physical body of Jesus, the Christ now acts from the more encompassing plane of Life.

These basic ideas help us understand why, particularly in our time, the forces of the anti-Christ are active as never before. Through wars, devastation and pollution of living Nature, the first atomic bomb, the greenhouse effect, genetically modified organisms and in many other ways, His work is being blocked. At the same time, human culture is riddled with materialistic ideas that are diverting human minds from these facts.

---

<sup>1</sup> But in those days after that affliction, the sun shall darken, and the moon shall not give her light, and the stars shall fall from heaven, and the powers that [are] in the heavens shall be shaken. And then shall they see the Son of man coming in the clouds with great power and glory. And then shall he send his angels and shall gather together his elect from the four winds, from the uttermost part of the earth unto the uttermost part of the heaven.

It was not only Rudolf Steiner that anticipated these events. Great painters divined this vision. A fine example is *The Resurrection* by Gruenewald in Isenheim (France) where the Risen One appears with a luminous sphere in the background and a foreground of what can only be the Earth with its transformed etheric body.

The etheric plane is composed of four etheric forces that have the following properties:<sup>2</sup>

---

<sup>2</sup> For details, see our booklet: 'A Spiritual Scientific Glossary'.

- Warmth Ether: the force that allows Life to manifest and renew itself. It is particularly active in the head of humans and in the roots of plants.
- Light Ether: this force governs growth and size is particularly active in the thyroid of humans and in the leaves of plants.
- Chemical or Sound Ether: the force that separates and orders, maintaining the relationship between parts. It can broadly be defined as the chemist or alchemist of Nature, presiding over cellular divisions, metabolic processes and the lymphatic circulation. In humans, it is particularly active in our metabolism and in the flowers of plants.
- Life Ether: the vital force that manages the life of each cell and integrates this life with the life of each organ and of the whole organism. It is inherited and relates to our general constitution and health. It lies latent within the seed. In humans it acts mainly in the reproductive system.

After this briefest summary, we can sketch how the “old” etheric body of the Earth flows through the seasons of the year.
